Bachelor of Science   2027 (expected)
Majors: Computer Science, Applied Mathematics & Statistics
GPA: 3.5

EXPERIENCE

Nestingale   May-Aug 2025
Fullstack Developer Intern
- nestingale.com / tools.nestingale.com
- Enhanced website design and optimized user experience by improving layout, navigation, and accessibility across devices
- Developed and maintained internal fullstack tools to streamline team workflows related to supplier data configuration and management to reduce manual input and accelerate supplier onboarding

Jag International Trim   Jun-Aug 2024
Frontend Developer
- jagtrim.com
- Developed a visually dynamic website with interactive graphics and smooth animations to enhance user engagement
- Built a reliable and scalable email reception pipeline using Amazon AWS services, optimizing communication workflows

WebRising   2021 - 2023
Co-founder, Lead Frontend Developer
- A volunteer-based web development organization that creates fullstack websites for local businesses at no cost, helping them maintain an online presence and adapt during the COVID-19 pandemic.
- Focused on supporting community growth through accessible digital solutions.

Steel City Code   2022 - 2023
Volunteer
- Taught beginner to intermediate Python programming to younger students, focusing on core concepts, problem-solving skills, and hands-on project development

PROJECTS

Portfolio - Next.js & Tailwind CSS
- jas9n.vercel.app
- Personal portfolio website to showcase projects, skills, and experience, featuring a responsive layout, smooth animations, and a clean user interface
